Dear All,

St. Xavier's College, XRCVC -Viviana extension is happy to announce an online workshop on the theme "A short Tour of Zoom app with open-source screen reader Part-1" under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons. This Workshop is supported by the SBI Foundation - Centre of Excellence for PwDs.

Preceding years world is coming close by use of an online technology and social media. From pandemic situation it has become an integral part of everyone's life. In such situation many online programs newly launched and many elder enhance themselves.

Zoom is one of the deep-rooted software very popular among users for a long time. It gives users flexibility to conduct meetings, share screen, video display, control of machine and many more.

Several visually challenge people use this program with either their computer or mobile phones. XRCVC is expressly considering their needs and conducting this 2-3 parts series on Zoom app for both type of users

The program is responsive with open-source screen reader NVDA and this is the first Part of the series on Zoom application.

In upcoming workshop let us take a brief tour of this application with NVDA.
