

Dear Friends,

The XRCVC is happy to announce a 1 day workshop on the theme, 'Basics of Libre Office Writer with NVDA'.

Libre office suite is a very comprehensive tool in the open source software world. Its liberal clear interface and tools let user to unleash creativity and enhance productivity.

LibreOffice is compatible with a wide range of document formats such as Microsoft Word, Excel, PowerPoint and Publisher. But LibreOffice goes much further with its support for an open standard, the OpenDocument Format (ODF). While working in LibreOffice, users have maximum control over data and content – and users can export work in many different formats including PDF.

Since Libre office is an open source program, there is no worry of lock-in and license fee by vendor.

Libre office writer is one of the programs in the Libre office suite, and equivalent to Microsoft Word.

In this workshop participants will learn the basics of Libre office writer.
