

Dear All,

St. Xavier's College, XRCVC -Viviana extension is happy to announce an online workshop on the theme "**Accessible document creation with screen reader**" under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.

Previously, visually impaired individuals faced challenges in creating accessible documents for notes, educational assignments, and workplace reports, often struggling with navigation due to their own document formatting. Today, visually impaired individuals can independently create accessible documents systematically, ensuring proper heading levels, formatting, and adding alternative text to images benefiting everyone involved.

In the upcoming workshop we will experience hands-on illustration with a screen reader.

Eligibility: participants should have a good knowledge of screen reader, cursor movements, Keyboard, basics of Windows, and internet browsing.

Limited seats are available for the session.

Those interested should kindly register by using the link appended below.
