Dear All,

St. Xavier's College, XRCVC-Lake Shore extension is happy to announce an online workshop on the theme "An Introduction to Phone Link App" under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.

- Do you often find it challenging to attend to phone calls or respond to messages while engaged in tasks on your computer?
- Would you prefer to operate your smartphone directly from your computer, ensuring you never miss important communications?

The Windows Phone Link application offers a practical solution. The XRCVC is organising a workshop focused on the Phone Link app, a Windows system utility designed to seamlessly connect your smartphone with your computer. This integration allows you to manage phone calls, SMS, and notifications from your smartphone via your computer interface.

During this one-hour session, participants will gain insight into the functionality of the Phone Link app, including an exploration of its accessibility features when used with the NVDA screen reader. Interested individuals are encouraged to register for the workshop by Thursday, March 12, 2026, 6:00 PM IST, using the link provided below.

https://forms.gle/AkvxLWEG66uVhRrF7

Workshop date and time: Saturday, March 14, 2026 – 4:30 PM India

Resource persons: Tejas Karanje and Keshavan Nadar
