

Dear All,

St. Xavier's College, XRCVC-Lake Shore extension is happy to announce an online workshop on the theme **"Bridging Gap with ARIA for Accessible Web Experience"** under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons. This workshop is supported by Dhun Pestonji Parakh Discretionary Trust.

- Have you ever experienced that some content on the web page has changed but your Screen Reader did not announce the changes?
- Have you come across web pages on which the screen reader is not behaving properly or not identifying the right element such as button or edit box?
- Have you ever experienced the sighted friends can see some headings on a web page, but when you find it with the alphabet H you are not able to find any headings?

To find out answers for these questions, XRCVC is conducting an awareness workshop on "Bridging Gap with ARIA". ARIA (Accessible Reach Internet Applications) is a technique by which the web content can be made accessible. ARIA has certain role attributes, States and Properties to fill the gap between non-semantic code and web accessibility. This one-hour workshop is designed to understand what ARIA is, when to use it, and how to apply essential ARIA attributes to enhance the accessibility of complex and dynamic web interfaces.

Workshop Date and Time: 27 Dec 2025 – 4:30 PM IST

Resource Person: Tejas Karanje and Keshavan Nadar

Criteria: Participant should be a person with Print Disability

Interested participants should register for the workshop using the registration form link appended below by Thursday, 25 Dec 2025 6:00 PM IST.

Registration Link: <https://forms.gle/pV5dpzpKsDX3XevL8>

The registered participants will receive the joining link on Friday, 26 Dec 2025. Hurry up and be a part of this informative workshop!

Thanks,

Team XRCVC,
