

Dear All,

St. Xavier's College, XRCVC - Lake Shore Extension is happy to announce an online workshop on the theme "**Using Standard Gmail with NVDA**" under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.

**Gmail has become an essential communication tool for many screen reader users. With Google phasing out the basic HTML view in early 2024, some users have found the transition to the standard view challenging. However, this interface—aligned with other Google Workspace applications—offers a modern design and a host of powerful features.**

**The good news? These features are fully accessible through keyboard shortcuts provided by Google and supported by screen readers.**

**In this one-hour workshop, we will dive into Gmail's standard view with NVDA, exploring practical and exciting features that enhance usability and productivity. Join us to unlock a smoother, more inclusive email experience!**

Interested individuals should register for the workshop on or before **Thursday, 4 Jun 2026 by 6:00 PM IST** using the link appended below.

<https://forms.gle/HLdrj3NqybpbMHZT7>

**Workshop date and time:** Saturday, 6 Jun 2026 – 4:30 PM India

**Resource persons:** Tejas Karanje and Keshavan Nadar

**Eligibility criteria:** The participant should be a person with Blindness and Low-vision

Please note that registered participants will receive the joining link on **Friday, 5 Jun 2026**. Hurry up and reserve your spot for this informative workshop and make your Gmail experience more inclusive and powerful!

**Thanks,**
